Technical information

Powerful, compact and innovative: The Wamix-mixers IV are an easy way of entering the world of vacuum mixing technology. The maintenance-free stirrer motor guarantees perfect, bubble-free mixing results with all kinds of plaster, embedding materials and silicone. The Wamix-Injector stands out with its powerful, oil-free and highly efficient vacuum generator, and the Wamix-Comfort IV/ Wamix-Classic IV with its proven, maintenance-free motor pump. You could start stirring all machines by just pressing a button, the mixing time is adjustable up to 240 seconds or 999 seconds. Above that the Wamix-Comfort IV is equipped with a storage of up to 15 different programs with additional possibilities to store for example pre- and post-vacuum as well as other things.

- compact vacuum stirrers with powerful, maintenance-free motors
- perfect mixing of all kinds of plaster, embedding materials and silicone
- press-button start; automatic mixing when beaker is applied
- audible signal at programme end, time display flashes
- mixing time adjustable up to 240 seconds or 999 seconds
- beaker vented only after ON/OFF switch is activated
- separate motor and pump drive/vacuum generator drive, hence the agitator can be switched on and off at any time without interruption of vacuum
