

## ● POLISHING MOTOR WSM-2

Endurance and experience

### Technical information

For metals and plastics: If you're looking for a compact, powerful and especially robust polishing motor, you can't go past the Wassermann WSM-2. It combines years of experience and technical advancement in a polisher motor designed for long life and daily use. For grinding, polishing, roughening, cleaning or brushing – quickly and cleanly. And safely!

- extremely low-noise thanks to permanently lubricated ball bearing
- ball-head control lever – easy to operate, even with the ball of the thumb
- problem-free starting from zero, smooth run-down
- very stable, no brackets needed
- outstanding power, even in continuous operation
- robust plastic powder coating
- optional connector

## ● Technical data and accessories

WSM-2	Item no.: 155999
Voltage*	220–240 V / 50/60 Hz
Power consumption	2.3 A
Output	500 W
W x H x D	460 x 210 x 195 mm
Weight	13.5 kg
Sound level	≤ 70 dB (A)
Speed	1500 / 3000 min <sup>-1</sup>
Height of spindle	130 mm

Incl. in delivery	Item no.:
Brush spindle right	152022
Brush spindle left	152025
Accessories	Item no.:
Brush spindle 25 mm right	152022
Brush spindle 125 mm left	152025
Brush spindle 125 mm right	152043
Brush spindle 125 mm left	152044
Stone holder right	152056
Stone holder left	152057
Drill chuck right 1–6 mm clamping	152049
Polishing trough without extractor nozzle	143140
Polishing trough with extractor nozzle (Ø 75 mm)	143130
Extraction traverse for polishing troughs, with aerial frog (output nozzle Ø 75 mm)	143500

\*Other voltages on request

Technical changes reserved

### Major features at a glance

- compact polishing motor with numerous usage options
- powerful, up to 500 W motor
- two speeds: 1500 min<sup>-1</sup> resp. 3000 min<sup>-1</sup>
- user-friendly and especially quiet
- maintenance-free for life
