

**MADE IN GERMANY**

Wassermann is a medium-sized, owner-operated company with head office in Hamburg. We design and produce high-quality technical devices in Germany. Our main users are dental laboratories, dental clinics and various industrial areas worldwide.

**Why a Wassermann product?**

Wassermann products are manufactured from high-quality materials and the proportion of plastics used is intentionally kept as low as possible. Our devices are known for their suitability for daily use, functionality and longevity. As a result, the users place high levels of trust in the Wassermann brand. We feel it is our duty to support our customers on a daily basis when it comes to safety, service and productivity. Technological perfection, optimum quality and especially sustainability are the benchmarks we set.

Thanks to the combination of these values, the family-owned company, since its establishment in 1927, has gained worldwide recognition as a manufacturer of high-quality products.

Wamix-Comfort IV,  
wall fastening

**Wamix-Comfort IV** - the programmable model: Possesses all features of the tried and tested Classic. Its programmable pre- and post-vacuum feature allows safe and bubble-free mixing of special materials as well. You can save 15 programs with your choice of names and access them any time. The well illuminated display supports you in the intuitive programming and quick menu navigation.

Wamix-Injector IV,  
wall fastening

**Wamix-Injector IV** - the starter model for cost-effective and economical work: It is extremely well-suited for mixing gypsums. Vacuum is achieved rapidly with this process even for large volumes, thus saving time. Another advantage is the robustness of the maintenance-free vacuum generator. Compressed air supply is required.

# Vacuum Mixers **Wamix-Comfort IV,** **Wamix-Classic IV & Wamix-Injector IV**

The Wamix mixers by Wassermann impress with their perfect and bubble free results. They are easy to operate and extremely robust, which makes work much easier for sure. The technological highlights of the Wamix Series provide the foundation for first class products - quick and reproducible.

High value metal components, almost maintenance-free

Visual and audible signal at programme end

Visual safety system helps to identify overfilling

Can be installed flexibly as a wall or counter device, table stand available as extras

**Wamix-Classic IV** - the All-rounder: The proven and maintenance-free motor pump and the speed regulation of the mixer unit makes the Classic well-suited to all kinds of plaster, embedding compounds and silicones. The motor pump is designed for high flow rates. Since it just requires a single power supply connection, the selection of the location is very flexible.

Press-button start, quick and reproducible processes

Beaker vented only after ON/OFF switch is activated, post-vacuum also reduces gas inclusions

Inclined motor for easy insertion of the mixer beaker, comfortable single-hand operation

Automatic mixing when beaker is applied

Simple cleaning due to stay-clean surfaces, plastic powder coated

## Major Features

- Homogeneous mixing of all kinds of plaster, embedding materials and silicones
- **Included in delivery:**  
Beaker, medium cpl. 350 ml  
Mounting set for wall fastening  
Compressed air hose, 2 m **Wamix-Injector IV**

Accessories	Item no.
Table stand (W 219 x H 467 x D 308 mm)	171777
