

● FINE BLASTING UNIT PUNA

The premium compact class!

Technical information

The fine blasting unit Puna is a compact, premium-class unit, which enables you to work extremely efficiently and quickly. It can be used with all common blasting materials and grain sizes. The blasting material flow is controlled by a foot pedal. In addition to its ergonomic handpieces, the specialist also impresses thanks to its durable blasting hoses and low consumption of blasting material.

- cost-effective fine blasting unit with two tanks
- easy operation by foot pedal
- precise working pressure of 1–6 bar with pressure gauge control
- optimum illumination, protected fluorescent lamp
- special, particularly durable hoses
- convenient colour coding system and comfortably to handle with ergonomically shaped handpieces

● Technical data and accessories

Puna	Item no.: 190897
Voltage*	220–240 V / 50/60 Hz
Power consumption	0.2 A
Female connector power consumption max.	8 A
Output	50 W
W x H x D	400 x 335 x 455 mm
Weight	10.5 kg
Sound level	≤ 70 dB (A)
Tank capacity	420 cm ³
Compressed air connection	3–6 bar
Working pressure	1–6 bar
Extractor nozzle	Ø 75 mm exterior

Incl. in delivery	Item no.:
PVC hose Ø 8x6 textile (blue) 2 m	320026
Supply line	592012
Puna incl. 2 fine blasting nozzles, 0.8 (blue), 1.2 (red)	190897

Accessories	Item no.:
PVC hose Ø 8x6 textile (blue) per meter	320026
Spare fine blasting nozzle 0.6 mm	190550
Spare fine blasting nozzle 0.8 mm	190551
Spare fine blasting nozzle 1.2 mm	190552

We recommend the use of Wassermann blasting materials and our suction unit SG-10/SG-20.

*Other voltages on request
